

Dear all,

The strange conditions of this time in which we live give hope that we will all think how far we have gone in things that do not essentially make life. And of course, bring us back to the true values of civilization.

Although the future of large conferences is still questionable, I am pleased to inform you that the Montenegrin Committee CIGRE - CG KO CIGRE, will make maximum effort to hold its **7th Session**, from **28 to 30 September 2021** in Bečići, one of the most beautiful and most visited tourist centers in Montenegro.

In accordance with the tradition of previous sessions, it is expected that more than 200 professionals and business people from Montenegro and neighboring countries will participate in the 7th Session of CG KO CIGRE. Our goal is to strengthen and develop the exchange of knowledge and information among experts from the countries of the region on the issue of production and transmission of electricity and give our full contribution to solving of related issues.

As the Montenegrin Committee CIGRE is a member of the Regional Conference of Central and Southeast European Countries - SEERC, representatives of member countries will also be our guests.

The latest technical knowledge and experience in the field of production, transmission and consumption of electricity, telecommunications equipment and information systems, will be introduced to the professional public through working sessions of 15 study committees. Breaks of working sessions will be followed by business presentations and exhibitions of the most renowned equipment manufacturers, with a presentation of the latest technical achievements and services.

The message of this Session will be contained in the conclusions of the round table "Hydroelectric Power Plants - Yes or No", viewed through the prism of the future of electricity sector in Montenegro. We want to show the readiness of our experts to respond to the challenges the electricity sector is currently facing to.

Regardless of the circumstances, the issues CG KO CIGRE deals with do not lose their significance. On the contrary, the readiness of the community to respond to all challenges is tested, especially in difficult times. In this situation, no one is alone. We all depend on each other, we all think of each other and we are there for each other. We are one, we have a common goal, and the idea around which we gather is noble, very important and must last.

Until a new meeting.

Best regards,

Chairman of CG KO CIGRE

Predrag Mijajlović
